Urgent Communique to Skills Development Providers, Employer Organisations and Partners

Effective 1 July 2024, the merSETA will cease to register new learners against Historically Registered Qualifications (pre-2009 qualifications). This decision aligns with the Ministerial Directive on Implementation & Transitional Arrangements for PRE-2009 Qualifications (Under SAQA ACT, 1995), Government Gazette Number 50742, published on 3 June 2024. Skills Development Providers and Employers who have learners that need to be registered must ensure that all the learners are registered or uploaded on the merSETA system by 30 June 2024.

A link to the gazette is provided in the table below for further information:
